Walking Safaris are the best and authentic way to explore the best of Tanzania and bring an ultimate feeling of an African Safari. Our walking safaris are the purest form of safari that will take you to the bushes of Tanzania where you can meet the wildlife closely which is an entirely thrilling and unbeatable safari experience.

The key elements of walking safaris are:

**Most adventurous-** Are you bored of taking rides in safari vehicles? Then take a deep walk through the heart of the national parks to add some more adventure to your experience diary.

**Truly authentic -** Walking by foot inside the bushes is the oldest way to exploring safari. By taking walk into the national parks you can get the feel of an authentic safari trip.

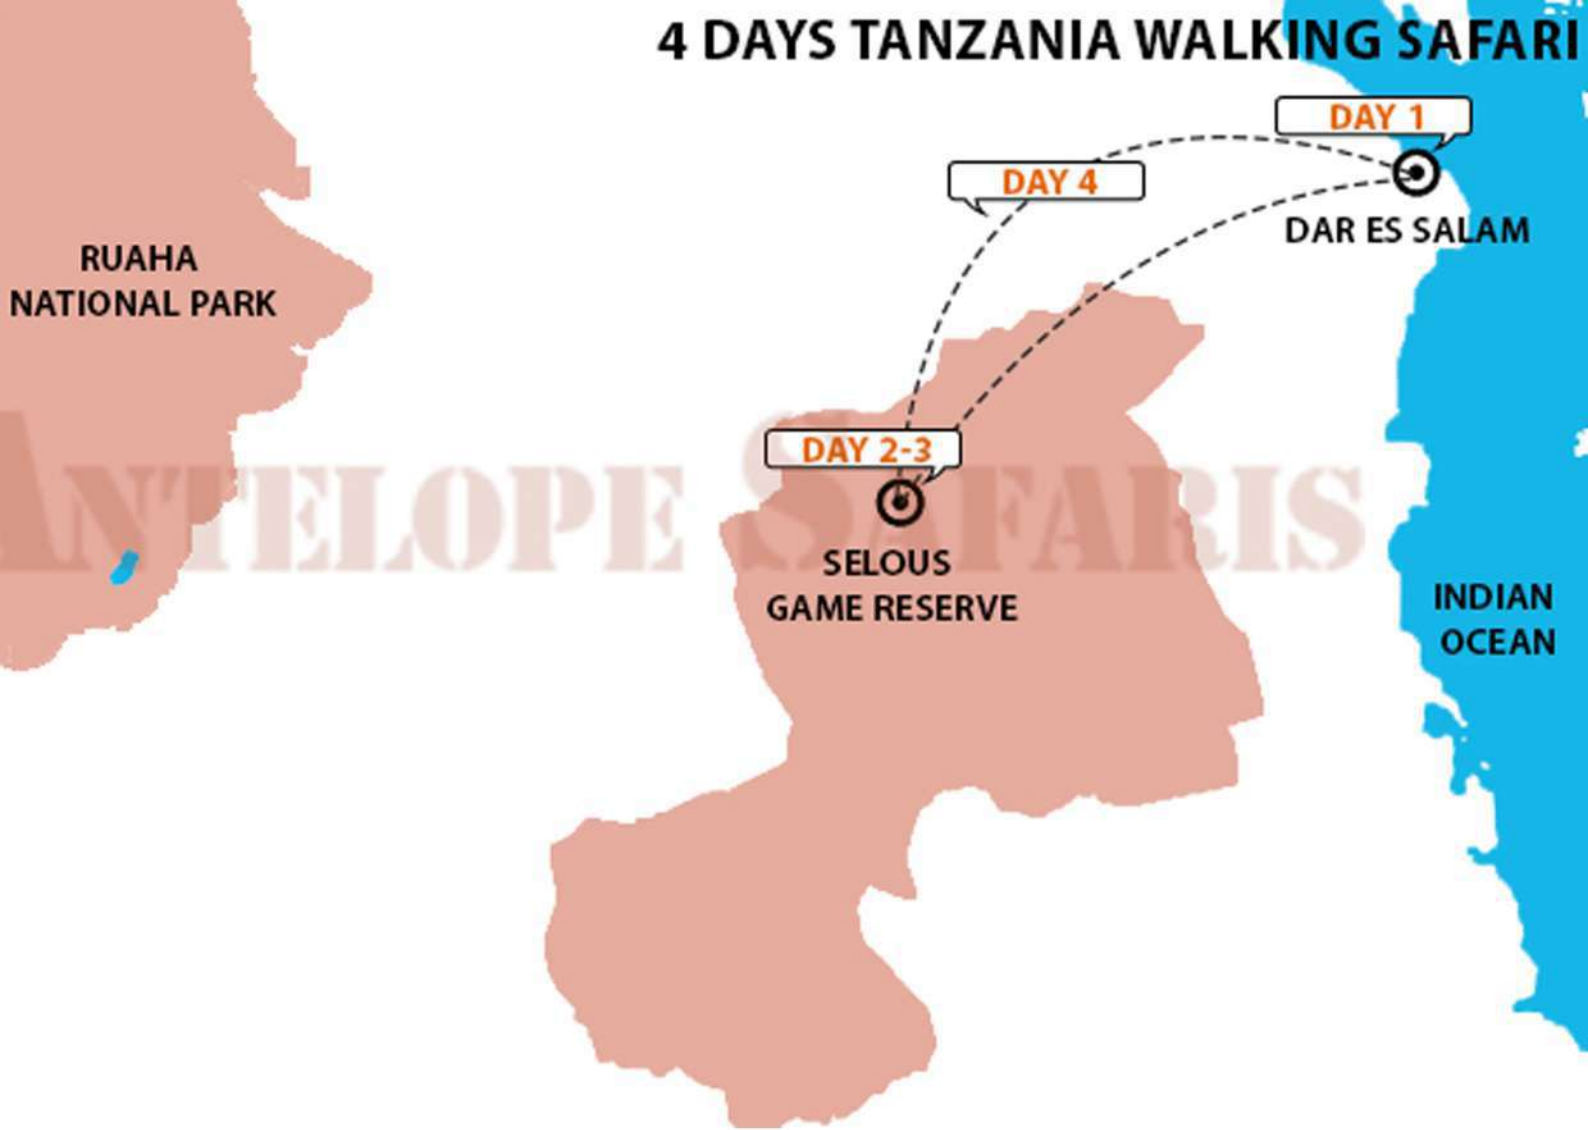

**Accessing the remote areas-** there are few areas in national parks that are impossible to access by safari vehicles due to the bad condition of driving routes. You can explore the regions on foot.

**Closest Encounters-** Just imagine encountering a predator chasing his food or a prey running and hiding from its eater or spotting a cute small creature in the bushes. Sounds amazing right, you can experience closest encounters by walking inside the natural parks.
